Record total page load time	Standard internet connection	Homepage loads within 5 seconds on a standard connection; no console errors	Homepage loaded within acceptable time (<5s)	pass

5. Observations & Recommendations

Observations

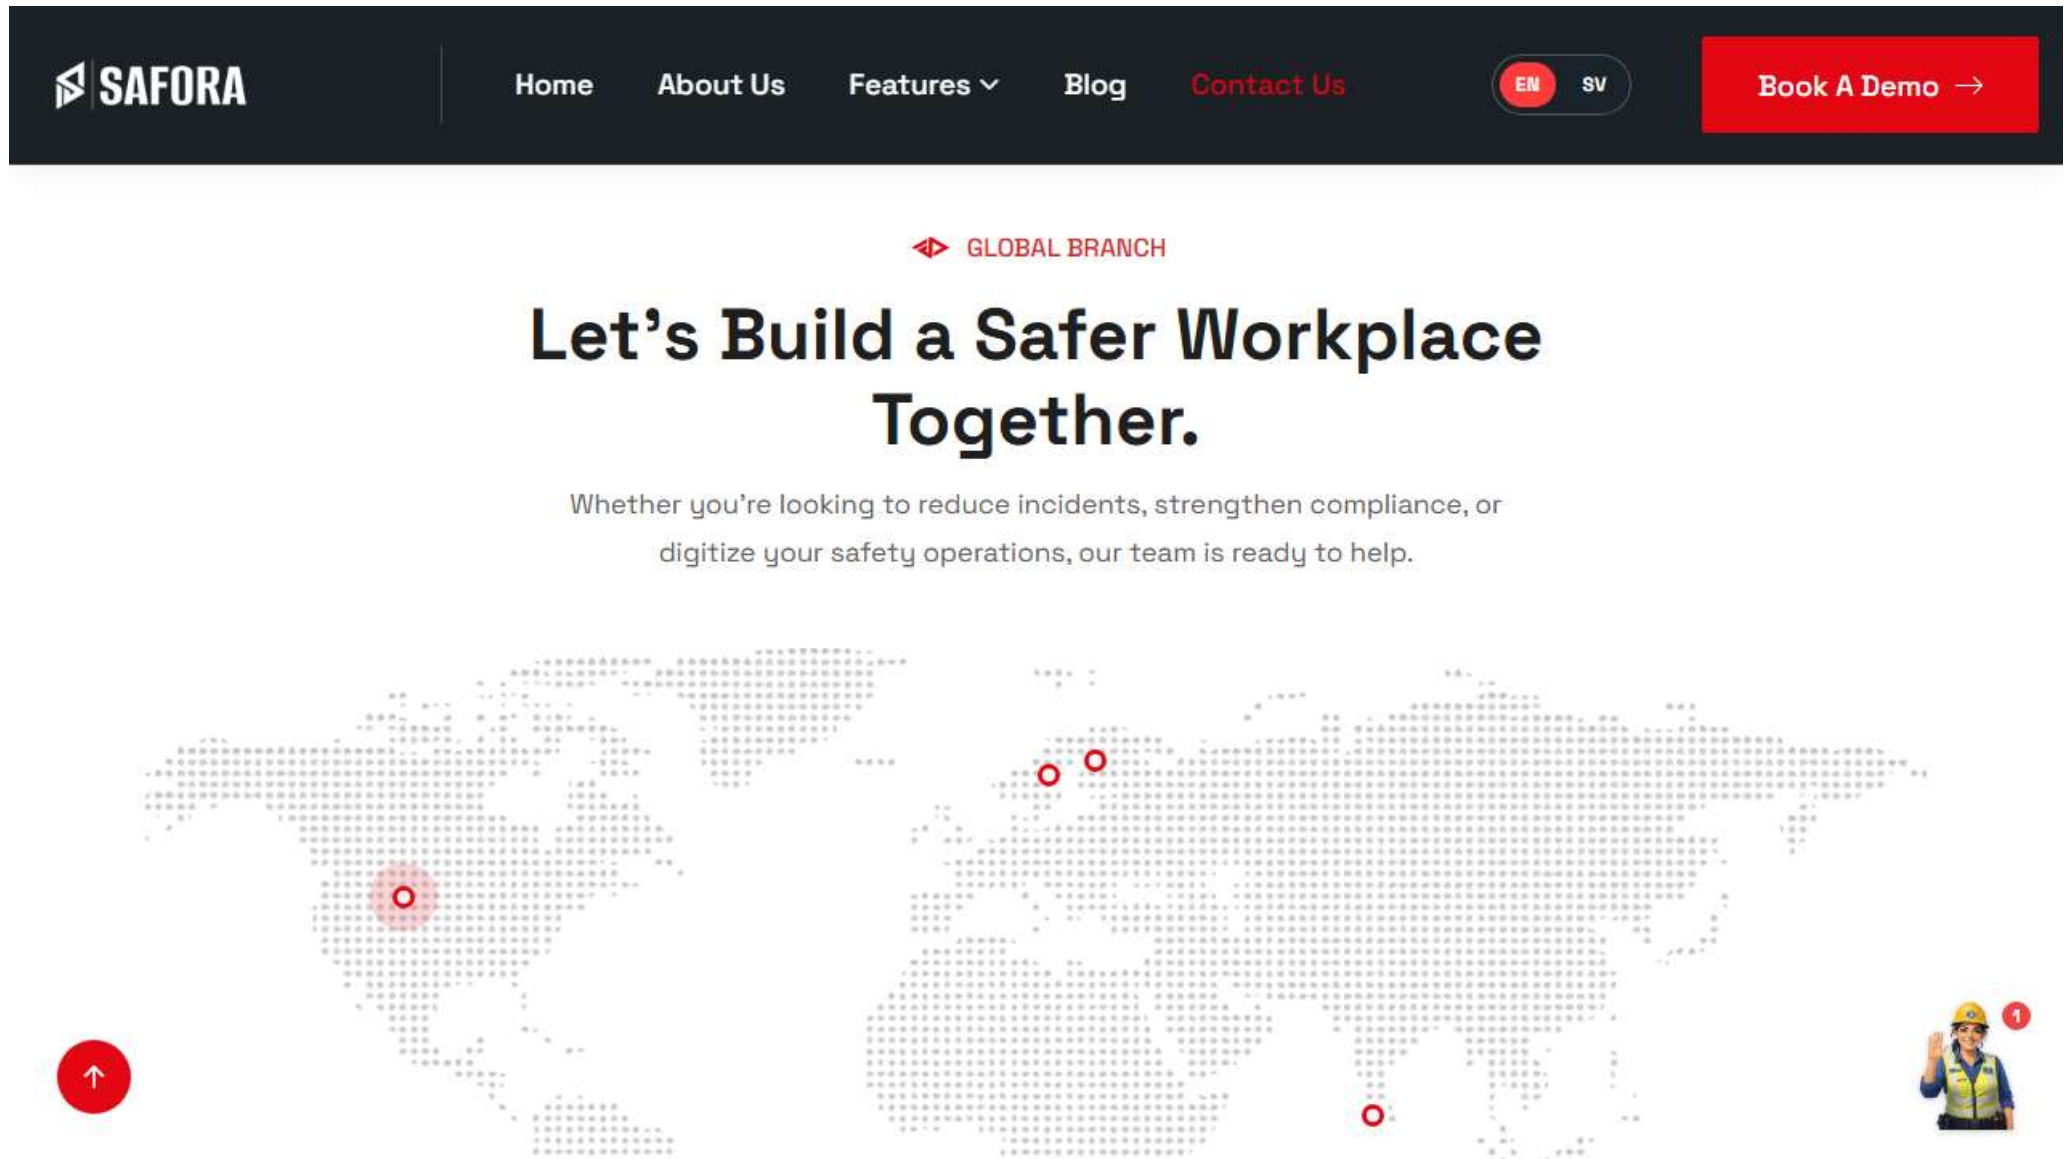

- Office hours show 'Friday – Closed' contradicting the 'Mon–Sat' range (should be verified and corrected)
- Navigation includes a 'Safety Reports' link under Features in some pages but not others (Not safety report feature under Features at <https://safora.se/en/contact.html>)

Recommendations

- Consider adding CAPTCHA protection to the Contact form to prevent spam
- Standardize the navigation menu across all feature pages
